ABOUT US

Crysla stands for refined surfaces with lasting impact.

Our matt finish laminates are designed to bring quiet elegance into everyday spaces. Crafted for the modern aesthetic, they offer rich textures, durability, and a soft finish that resists glare and fingerprints.

Ideal for bold, clean interiors, our laminates are the choice of designers who value both style and substance. At Crysla, we don't follow trends—we create timeless expressions for inspired living.

Anti-Bacterial

- Antifinger, anti scratch, soft touch and more environmental friendly**
- Using excimer technology, the surface has been improved repair performance and is super scratch-resistant compared to similar crysla products on the market. Extremely delicate.
 - crysla material is composed of multi-layer structure and has stable performance
 - Comply with EU REACH regulations and food-grade environmental protection requirements,
 - It does not contain plasticizers, formaldehyde, heavy metals and other harmful substances, and is truly non-toxic and odourless.
 - Weather resistance gray card level 4 or above, specific colors can be weather-resistant for up to 5 years without discolouration;
 - The hardness is good up to 1H and has good scratch resistance;
 - The stain resistance level can reach level 5 with no obvious change;
 - The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.
 - Compared with PVC, crysla is more environmentally friendly and has stronger surface anti-fouling and scratch resistance. It is a very ideal decorative material for door and wall integrated cabinet door panels.
